

#800 INTELL SOFTWARE
PLANT TO OFFICE DATA

#800 INTELL DATA ACQUISITION

- **INTELLigent Data Collection: Plant to Office**
- **NO ANNUAL LICENSE FEE, NO UPGRADE FEE**
- **INDUSTRY STANDARD FORMATS**

Plant Data Import to Production Control, Accounting and Management Systems.

Flexible secure data collection from any intelligent process machine to office network.

Reliable, fast, accurate, rugged.

Data to Local Desktop, Office Server or Internet.

Scalable, small to large systems.

INTELL provides the complete solution for acquiring Weight, Count, Size, Color, and other data from the processing plant floor to the office to optimize Profits and Enhance overall Production Performance.

Data is securely archived on site or off site, for Report Generation and Production History.

Data may be displayed in Excel spread sheets in real time or off line. Reports easily changed to display data in different formats to facilitate production oversight and highlight problems and opportunities.

Data may be seamlessly imported in real time to Back Office Systems and SQL server systems.

INTELL carefully and securely monitors production data in real time to allow display of Yield, Efficiency, Production Rates, Worker Performance, and other metrics. Data easily displayed in charts, running averages, time histories and other formats to expose problems and profit opportunities.

INTELL has Structured Modular design that provides flexibility and efficient configuration for very small or very large production plants.

INTELL supports a wide range of Ryco Processing Machines as well as machines from many other manufacturers. If the machine can report status in standard digital format, over wired or wireless links, INTELL can handle it.

FEATURES:

- *Interface to almost any machine*
- *Windows based*
- *Real Time Office display of data*
- *Input via Ethernet, USB, RS232, RS485, Wireless.*
- *Bidirectional communication prevents data loss and allows "push" or "pull" transmission.*
- *Data collection up to 2 miles.*
- *Access to Data screen from Local Net or Internet*
- *Compatible with eReports, Simba, Wisefish, Seasoft, SQL Server and other programs.*

A MEASURED VARIABLE IMPROVES
